

BCS BULLETIN

VOL. XXXIV, NO. 1

NOVEMBER, 1974

LENNOXVILLE, QUEBEC

"A Winning Team"

First Team Football

What can be said about a little 'back woods school' that has a football team that boasts a 9-0-1 record against the top competition in the province?

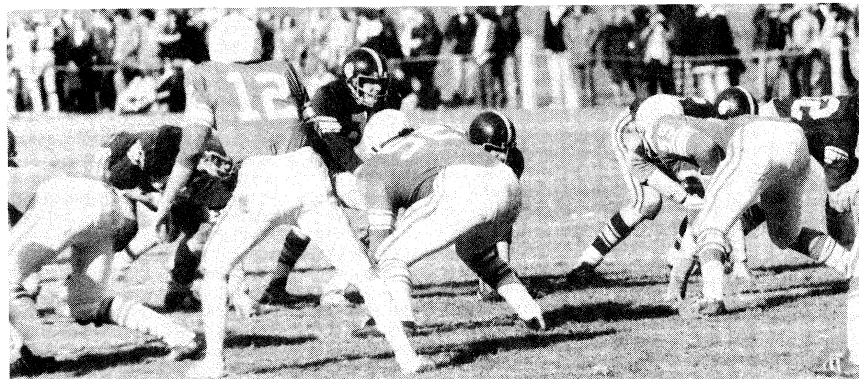

This year's team has taken five out of a possible five trophies, 100% of what they were shooting for. Taking Lower Canada College on their home field by a score of 22-19 (the first time in 29 years) the team played near to excellent football, with both offense and defense excelling.

Their next victory was at Stanstead. Yes, once again the purple and white took hold of the Senator Howard Trophy by two decisive scores. The first being 37-26, and the second by an outstanding score of 40-0. That's what is meant by the "Purple Machine". Mention must be made of the

annual "Old Boys" game — unfortunately, a sad event for the many old boys who attended as they were soundly beaten 19-6 on a soggy old field.

The team this year compiled 3,353 yards in total offense. Working out of the triangle, split and single backs they were able to pick apart any defense put up against them. The defense on the other hand was not defeated by any offense. Using loops, slants and stunts they pressured teams into many a mudsoiled defeat.

The five trophies captured by first team this year were: Senator Howard, Stanstead; Shirley Russell, L.C.C.; OBA Cup, Ashbury; Championship in the E.T.I.A.C. and the H.H. Norsworthy Cup for annual play against Selwyn House.

Cross Country

Although the weather didn't look promising October 30 there must have been something in the air. In both Girls' cross country runs, records were shattered. The day was overcast but the temperature was warm.

In the junior girls' race the first five finishers broke the previous record. The top House was Gillard winning sizably over Glass. The top three finishers were.

1. S. Ash 11:57
2. S. Hibbard 12:12
3. McGee 12:19

The Senior Girls had a very good race also. Glass House came out on top but Gillard proved to be a good competitor. Again the first eight finishers broke the previous record, and when the 2.5 mile course had been completed, it was Jenny Campbell in first place.

1. J. Campbell 16:38
2. D. Pritchard 16:43
3. M. Paine 16:51

October 31 proved to be the day of rain. The course was in poor shape and it didn't seem as though the records would be tested, even

though the runners were capable. The junior boys race over the 3.0 mile course seemed up for grabs between a handful of good runners. It was a tight race in both house and individual competition. Grier House retained their shield, while Craig Fields of Chapman came in victorious. The top three finishers were.

1. C. Fields 22:15
2. P. Toothe 23:07
3. M. Setlakwe 23:10

This year's senior boys race could have had any house winning. No house had any real break away runners, but later, at the finish line, Chapman House pulled a few good finishes and the House Shield. It seems mere tradition now that Paul Tinari should win as he did, only after he was given a good run by John Molson. The top three were.

1. P. Tinari
2. J. Molson
3. T. Ross

Even though the conditions weren't perfect it provided the on-lookers with an exciting race.

NEW CHAMPIONS!

(Senior Girls Soccer)

Girl's 1st Team Soccer went undefeated this season with seven wins and five ties. Consisting of eleven new girls and six vets, the team didn't take too long to realize that it had a lot of potential and all it had to do was prove it. With a lot of hard work and determination this is exactly what it did. The team won the ETIAC league championship and the AGRHS invitational tournament. The old girls russed up a team and out they came, some in jeans and T-Shirts or whatever they could find. They looked like a tough team but, despite the foul play of an old girl whose name we shall leave anonymous and the supposedly impartial coach, 1st Team were victorious once again with a 6-0 win.

MISCELLANEOUS SCHEDULE

Thursday-Saturday, Feb. 13-15th
Vth Form Winter Carnival

Friday-Saturday, March 7-8th
Presentations of 'Damn Yankees'

Friday, May 16th
Cadet Inspection

FIRST TEAM SOCCER

Senior boy's soccer started this season hoping to build up their team for next year. Well, much to everybody's surprise, they dropped the 'build-up' bit to finish with a respectful second place. Despite an injury-plagued season for the team, they managed to kick themselves into reasonably good shape. Changing their game for every encounter, each player seemed to have a good year of soccer at almost any position!

SENIOR GIRLS FIELD HOCKEY

This year's senior field hockey team got the season off to a good start with a 2-1 win over Richmond. Despite mudbaths, enthusiasm was high among team members, and although ties and losses outnumbered wins, it can be accounted a successful season. The team played its best, on Sunday, October 20, when they attended a tournament on St. Helen's Island, coming fourth out of the ten teams participating. This was the first overnight trip by any girls team. They closed the season by tying with Galt 2-2.

PUBLICATION OF THE BULLETIN BY THE 7TH FORM JOURNALISM CLASS

During the '74-'75 school year the B.C.S. newsletter will be written by the seventh form journalism class. This is the first time that there has been a group of students responsible for the publication of the bulletin and it is also the first time that journalism has been offered in the school.

Teaching the journalism class, and acting as advisor to the staff of the bulletin is Mr. R. Lloyd, head of the English department. The staff of the bulletin this year is:

D. Boiteau	S. McTavish
M. Derney	M. Medland
D. Fuller	M. Murphy
C. McDougall	M. Paine
T. McGee	B. Picken
C. McQuade	T. Price

The aim of the bulletin this year is to keep the alumni of the school informed about the changes and happenings that go on in the school. The new staff would welcome any recommendations for improvement of the bulletin or things that we have left out that might be of interest.

"ACADEMIC UPDATE"

In addition to journalism, five new courses are being offered at Bishop's this year. Three of the courses, Statistics, Economics, Political Science are being offered to Seventh Form students, while two of the new courses, Ancient History and World Economic Geography, are being offered to the Sixth Form. The Seventh Form subjects are equivalent to first year C.E.G.E.P., or university courses, in order to make it possible for graduates from Bishop's to continue directly into university programmes.

The study of Probability and Statistics, taught by Mr. R. Perrier, is offered as a prerequisite to university or CEGEP 2 Statistics. This course contains topics such as elementary probability, coding, permutations and combinations, analysis and organization of statistical data, and the analysis of variance.

Mr. Milner is teaching Economics to a large and interested group this year. This course deals mainly with the laws of supply and demand. The Economics course is Canadian centered and deals with the international aspects of economics only where they coincide with Canadian Economics.

The Political Science course now being offered at Bishop's is being taught by Mrs. Tucker. This course covers many aspects of politics from its ancient origins to modern politics. It also delves deeply into the political theories of both classical and contemporary writers.

ENROLLMENTS 1974-1975

As was the case last year, enrollments, are up again this year and the future looks even brighter. Compared to last year, the school population has increased by 25 people and the present school figure stands at 281 people. The bigger increases have occurred in the enrollments of day students where the number has almost doubled. Last year, 17 day students "commuted" from Lennoxville, Sherbrooke and surrounding areas while presently, the number is at 30 day students. This figure is going to climb as will the other figures as Mr. Doug Campbell, the Admissions Officer, has many applicants for future spaces in the school with more applicants expected.

The majority of the houses are filled to capacity and it seems that the 117 new students are fitting into the B.C.S. system very well. Again, new students increased from last year by 22 yet the sharpest increase seems to be in the returning grads of 7th form. A couple of years ago, 21 students occupied the class (Grade 12) whereas it currently holds 32 students. This certainly is a good sign, as leadership is an important factor to the school and these students help to provide it.

"YOU'RE OUT!"

The B.C.S. players club are once again off to a great start, with a brand new musical production underway in last year's tongue in cheek comedy style. This time the subject is baseball. It will be presented at the Bishop's Centennial Theatre on March 7 and 8, with a cast of 19 under the direction of Mr. Rod Lloyd. "Damn Yankees", the story of a modern day Faust, stars Derek Sewell as the heroic baseball star and Tim McGee as the devil who causes havoc while under the pseudonym of Mr. Applegate with Wendy MacDougall as the loyal wife and Cathi Molson as the enticing witch. Other leading roles will be played by Alan Monk, Kevin Matson, Stuart MacTavish, Nick Lomasney and Maggie Paine.

Also planned for this spring is an evening of Shakespeare. Three Shakespearean scenes, each under separate direction and performed in a different style, will be presented.

The two new courses being offered to sixth form include Ancient History, taught by Mr. Halliday, and World Economic Geography, taught by Mr. Bateman. Both courses are advanced studies in history and geography respectively and give the student units of high school leaving credits.

AGORA

Friday nights at the school have taken on a whole new appearance this year. The Debating Society swings into action from after dinner until the early hours of the evening, and visitors to the school at this time are apt to see a group of boys or girls hot in conversation over some point of order or personal privilege.

The response to Agora this year has been astounding, 45 male members and 27 female members, and always a host of interested on-lookers and radical backbenchers. Always one can find enthusiasm, and results of BCS debaters, both at home and away has been truly excellent. A team of Paul Monod, Tim McGee, Hugh Notman, Tim Moseley, Wayne Guy, Alek Speth, Mary Wright, Brenda Lee Picken, travelled to McGill in early November. McGee and Monod won three out of four debates and placed high in the overall standings. The other debaters performed well and left a trail of devastated opponents, and bedazzled judges.

Under the auspices of H. MacFarlane and Co., Agora continues to function as one of the most literate activities in the school. Future success seems inevitable, as more and more students are discovering the fun way to handle an argument.

SOCIAL SERVICES

Under the leadership of Mr. A. Campbell and Mr. R. Owen the Social Services group at Bishop's has already begun its work for this year. Eight students travel weekly to Huntingville to tutor children at the Maplemount Home. The children's ward at the Centre Hospitalier Universitaire in Sherbrooke is also entertained once or twice weekly by six students from Bishop's. This year, sad to say, there are only two students visiting shut-ins in Lennoxville, but these two are trying to bring warmth and good cheer to those who are unable to be out. On Hallowe'en night the children and advisors from Maplemount were guests at a Hallowe'en dinner at Bishop's before they went trick-or-treating. The students involved in Social Services are also looking forward to a Christmas trip to the Grace Christian Home in Huntingville when the elderly people will display their varied talents in a show for the students.

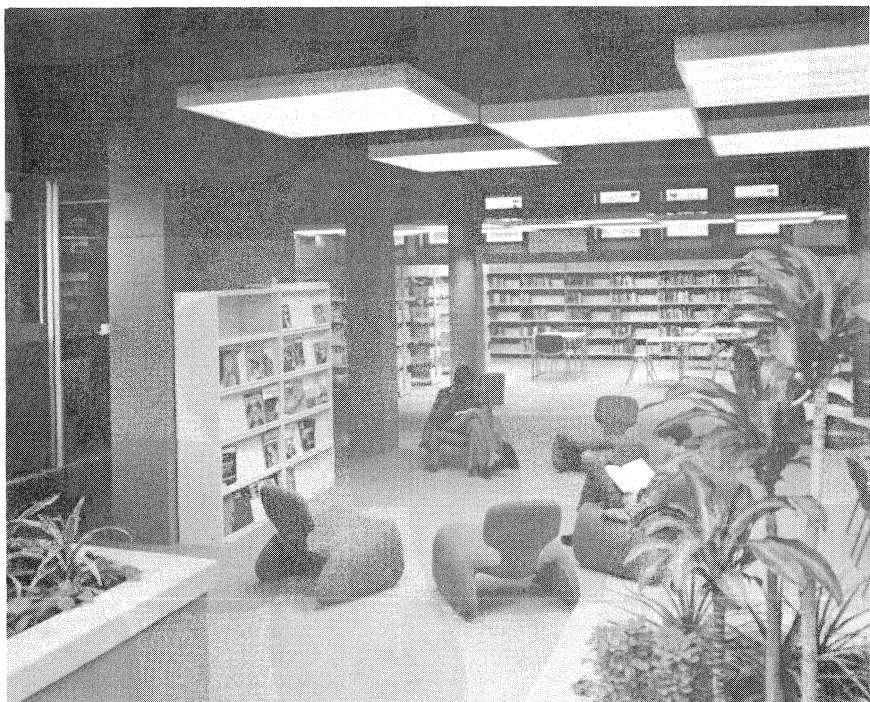

Mr. Campbell feels that Social Services is involved in rounding out the individual student's personality and in creating a good citizen. He is very optimistic about the now six-year-old club and feels it will continue on in future years.

THE LIBRARY,

New Faces, New Ways

The library felt a major loss this year in the departure of Mrs. B. Allison, who in the past six years, had built up our library from "a stack of books located in a shoe box" to the more than adequate and pleasant area where today students can study, read or merely browse amid tropical plants and sunroofs. The library is now run by Harry McFarlane and James Winder, who have succeeded, even in this short time, in giving it an excellently informal air in which students participate much more in its

administration. Instead of the usual 6 seniors librarians, there are now forty-odd students who are in charge of prep and class time duty, book shelving, collecting and general participation in its activities. So far \$400. dollars has been spent on new periodicals, and close to this figure has been spent on ordering new books. A work room has been placed adjoining the library as a Student's attitude has improved greatly this year, and the proper uses of the library are at last being appreciated by all.

MOUNTAIN DAY AND COUNTRY GROUP

On Saturday, September 7, the school took off for a mountain climb of Mount Orford. We couldn't have asked for a better day. The climb was pleasant, and our lunches awaited us at the top, where we sat and viewed the countryside. A second mountain climb was planned for October 14, Thanksgiving Monday. Due to showers in Vermont the climb was cancelled only after the school had already departed for Mount Mansfield.

With Mr. David Cruickshank's return from England, the Mountain Country Group was again taken up by seven members of the Seventh Form. The group journeyed some fifty miles on their first two expeditions along the Long Trail in Vermont. The group consisted of A. Monk, T. Ross, T. Simard, M. Shupe, E. Price, C. McQuade and D. Fuller. These boys under the guidance of Mr. Cruickshank enjoyed the two and three day hikes in exceptionally fine weather.

The first trip was highlighted by the spectacular views the group saw

when they climbed the highest mountain in Vermont, that being The Chin of Mansfield. The second trip was successful in that the sun was out for the entire trip, something very rare on the Long Trail.

Although the trips were physically tiring, the group also gained valuable knowledge of the wilderness. The group looks forward to more trips in the spring term.

CADETS

Training and instruction for the recruits and cadets is now under way. This year for the first time in recent years an intensive training program for second year cadets will be introduced. They will receive instruction in fieldcraft, map & compass using, 1st Aid, fundamental training, small arms operation and drill. The recruits will undergo much the same sort of training at a more elementary level, with heavy emphasis on drill. Activities for more experienced cadets continue as before. They will be able to choose from range, fire fighting, life-saving, typing and a master cadet course.

Earlier this year an honour guard was selected to represent the corps in the Black Watch Church parade on Sunday, October 6 in Montreal. Under Major Abbott's supervision the guard underwent a concentrated drill program and was ready for the march along Sherbrooke St. to the church for the ceremony of laying up the old colours of the parent regiment. Several Old Boys were in the ranks of the Black Watch and many Old Boys and friends of the school were on hand as spectators.

This year's annual cadet inspection will be held on Friday, May 16th at the school. In case of inclement weather the inspection will take place in the W. B. Scott Memorial Rink at Bishop's University.

GRADS

Where as in the past many B.C.S. graduates have been attracted towards Queen's University, 24% of our former Seventh form are now attending the University of Western Ontario. However, Queen's still remains a popular choice among our graduates carrying 18% of these former Seventh formers. The rest are spread out in various areas such as Bishop's University, Carleton, Guelph, U.B.C., Smith University, The University of Delaware, Waterloo, University of Toronto, and last year graduate Renee Provencher gained a scholarship to a college in London, England.

Most of our Sixth form seemed to find Carleton their popular choice. Champlain CEGEP was also popular. Forty six per cent of our Six Form class returned to B.C.S. while some people still can be found at Dawson, John Abbott or U.N.B.

THE B.C.S. FOUNDATION CAMPAIGN

Contributions are still coming in as the result of our drive to raise funds to cover the heavy capital expenditures we were faced with in our 1972 building and renovation program — Phase 1 of our three phase Master Plan for further development. Unfortunately, the contributions received to date have not been sufficient to permit us to go ahead with Phase II or III — both essential to the future of B.C.S.

Appeals for financial help have been mailed to many — canvassers will, or already have, contacted Old Boys, Old Girls of KHC, Parents — past and present, Industries, Foundations and Special Friends of the School, but there are far too many we haven't heard from.

We need your support — the Campaign office for information and contributions is at the School and should be addressed to the attention of Col. John Blue.

SUMMER SCHOOL

This past summer 91 girls and boys between the ages of eleven and sixteen attended the Summer School Program of B.C.S. between June 30 and July 26.

Mr. Eric Detchon was the program co-ordinator and he and his large staff offered courses such as:

Computer Science

Mr. W. Badger

English

Mr. E. Dwyer

English Second Language

Miss E. McLean

Practical Ecology

Mr. D. Campbell

The basic routine consisted of classes in the morning, recreation in the afternoon, and activities after supper, pertaining to their courses.

To make the summer education more enjoyable many trips were taken. On Monday July 15, half of the school went down to the Ausable Chasm in New York State, while the other half went to Quebec City for a tour.

Theatre goers had the chance to see four productions, three at Festival Lennoxville and one at the Pigery in North Hatley. For those more baseball minded the school took in an Expo contest at Jarry Park.

The correct blending of academics and recreation made the summer program an enjoyable and successful experience.

MERGER

Two of last year's coaches joined forces over the summer. Bob Perrier and Ann Smith returned as Mr. and Mrs. this year and are now living on campus. Bob still teaches Math, coaches our track team and this winter is taking over Ann's former task of coaching Senior's Girl's Basketball. Ann has given up her duties as head of the girl's Physical Education Department and coach and is taking courses over at Bishop's University.

She is still an enthusiast of girl's sports and can be seen attending many a game. Bob and Ann both play a large role and contribute much to the life here at B.C.S. and we wish them much happiness.

"EARLY ADDITIONS"

Two new members joined the Bishop's Community this term. Mrs. Peter Milner gave birth to Adrienne Elizabeth Milner a 9 pound 14 ounce baby girl. Mrs. Mervyn Gray gave birth to a 7 pound 11.5 ounce baby boy given the name of Mark Kenneth Gray. Both births were celebrated with half holidays.

SEVEN NEW TEACHERS FILL VACANCIES

This year the school has seven new teachers.

Mr. Charles Halliday comes to us from Temple Grove School, where he taught with Mr. Bateman for a year. He currently teaches history to all forms, while taking the 4th and 3rd forms in English. He also coaches bantam girls soccer and is an assistant housemaster at Smith House.

Miss Kathleen Harper teaches Phys. Ed to the girls as well as Elementary Science to the 2nd and 3rd forms. She coaches field hockey, is actively involved in girls gymnastics and is an assistant housemistress in Gillard. A former KHC girl, she has close ties with the school.

Mr. John McClintock is late of Mount Allison University where he received his B. Sc. in Math. Proving to be a very successful football coach, he also teaches math to the 4th, 5th and 6th forms as well as serving as an assistant housemaster in McNaughton House.

Dr. James Lowther is giving his students the benefit of his fine knowledge of sciences as he teaches Biology to the 5th, 6th and 7th forms, as well as Chemistry to forms 6 and 7.

Ken McCafferey was at B.C.S. two years ago, while working on his B. Ed. at B.U. He has returned to us as a history teacher to forms 2 through 6 and as a drama teacher to fourth form. He is also coach of the very successful Bantam football team and is an assistant housemaster in Grier.

Miss Sylvia Terpstra, unfortunately, will only be with us until Christmas, as she is a student teacher, on a four month work term, from the University of Waterloo. However, she has devoted many hours towards B.C.S. She teaches Math to 2nd through 6th form and Computer Science to 4th form. She is a welcome addition to Glass House as well as coach of girls cross country crease.

Miss Elizabeth Tirk resides in Gillard House and aside from teaching English and Drama to forms 3 through 6, she is also the inspiration behind several journeys to the plays in Sherbrooke and Montreal.

We regret the loss of five fine teachers. Great appreciation goes to Wayne Nugent, Miss Sue Hammond, Miss Bonnie Pietras, Mr. Brian Ander, Mr. Trevor Jones and to Mrs. Betty Allison who made the library such a great success. We do also miss Mr. Hugh Dohney who is away on a year's sabbatical at Bishops University, but we look forward to his return next year.

"PROFILES"

Mrs. Luella Brady has spent thirteen years as matron at B.C.S. Over these years, Mrs. Brady's house was a refuge for the boys, especially the juniors, a sort of "home away from home". It became a place to escape to away from the pressures of school life. Mrs. Brady could always be counted on to provide homemade food, a place in front of her television set, and a comforting word.

Mrs. Brady's day is long, for it entails the hiring and supervision of staff for the linen room and maids for the houses, as well as maintaining house cleanliness and purchasing all maintenance supplies, new furniture, linen, and bedding. Since the introduction of girls in 1972, Mrs. Brady has found her work more time-consuming. She finds she spends more time in her office, involved with paperwork and less time checking the houses. With so much added work, Mrs. Brady delegates more responsibility to her assistants or "her girls" than in previous years.

Mrs. Brady thinks the Old Boys would find a great change in house life. Students now have radios, stereos, and televisions. Quite a change from the days when comic books were forbidden! Although she misses the Old Boys who came to watch hockey games, Mrs. Brady enjoys working with young people as much as ever.

Mrs. Brady plans to stay on at B.C.S. for another four to five years. After this time she would like to go into social work. She finds this rewarding, especially when working with older people. There are many people, unable to do much whose lives would be considerably brightened by an occasional party and this Mrs. Brady hopes to be able to give for them. Transportation among the elderly is a problem and she wishes to organize car pools for such things as hospital visits. Yet Mrs. Brady is such a part of B.C.S. we cannot imagine the school without her.

MRS. PAULINE BELTON R.N.

Mrs. Pauline Belton arrived at BCS in 1961 as an assistant to the then Senior Nurse Miss Morisette. After five years in this role, she assumed the role of Senior R.N. when Miss Morisette retired. In the past thirteen years Mrs. Belton has given unselfishly of her time and effort to both students and school alike. As the overall head of both infirmaries she maintains a high level of excellence in all medical matters. To speak of Mrs. Belton only in terms of her formal duties would be a grave injustice. There are so many qualities and values which she has imparted on the people she has been in contact with, that it seems only fair to speak of them in general terms.

Those qualities of honesty, hard work and unselfish consideration for others, seems always to make themselves apparent over at the Boys infirmary. Mrs. Belton speaks warmly of Old Boys and looks forward each year to having them visit and say hello. While she admits "The times have changed" she is happy with the school and takes kindly to the girls who appeared on the scene a few years ago. She's "In love with her Boys" and feels that while they have more freedom than before, they are more self sufficient than in the past. Her sensitive approach to life has gained her the respect and friendship of all who have known her in any way large or small. Her family and BCS are her life now and she cherishes the memories of her time spent here.

When not attending to the boys aches and pains, Pauline can be found working diligently in the garden around the infirmary. All of us at BCS would like to express our deepest thanks and gratitude for thirteen years of unselfish devotion and service to our school.

HELP!

Anyone knowing the whereabouts of any of the following "Lost" Old Boys, please contact Col. John Blue at the School.
